

# ADRIAN COSENTINO

Aspiring computer science senior student at UCF, seeking an internship where I can apply my classroom knowledge to real-world challenges, collaborate with experienced professionals, and continue growing as a software developer. I have experience working with MERN and LAMP stacks, currently learning more about React and TypeScript, where most prior development experience entailed JavaScript and html.

## EXPERIENCE

### **CODING AND ROBOTICS INSTRUCTOR**

VR Orlando Rentals

SEPTEMBER 2024 – NOVEMBER 2024

Lavner Education

JUNE 2024 – JULY 2024

Leading classrooms of child programming prospects and teaching them about the essence of block coding and robotics

Both were brief positions that followed different curriculum and used various software for the students to learn.

### **TEAM MEMBER**

Cooper Hotels

MAY 2021 – MAY 2024

Customer service and register worker at the Hilton concession stand at Lake Mary Boombah Sports Complex, trained new team members and completed jobs efficiently.

### **WEBDEV TUTOR**

Self-Emp

2024

Unofficially teaching fellow students how full stack development works and the basics of using languages needed for the MERN stack.

## EDUCATION

### **B.S. IN COMPUTER SCIENCE**

University of Central Florida

Expected Graduation : Fall 2025

GPA : 3.4

Relevant Coursework Examples: Object-Oriented Software Development, Matrix and Linear Algebra

### **ASSOCIATES OF ARTS**

Seminole State College

Graduated : Fall 2022

GPA : 3.8
